

## Corporate

The Glaser Weil Corporate Department serves a wide spectrum of publicly and privately held companies — from family businesses, start-ups and emerging growth enterprises to large global corporations with household names. Our clients' businesses span numerous industries, from entertainment to hospitality to oil and gas, just to name a few.

Our Corporate lawyers are in a class unto themselves. We never lose sight of our commitment to being a vital and dynamic force in our clients' challenges and successes, at every turn. Our attorneys are equally at home in the boardroom and at the negotiating table, and counsel our clients on a broad array of issues that they may face in connection with the formation, operation, expansion and disposition of their businesses. These issues run the gamut from everyday management matters to accomplishing the most complex and sophisticated transactions.

To maximize efficiency and outcome, as well as our collective depth, talent and expertise, our Corporate Department is organized around several core practice areas:

- Mergers and Acquisitions
- Securities
- Limited Liability Partnerships/Corporate Transactions

This structure, as well as our attorneys' collective commitment to efficient and effective representation, ensures that we consistently represent our clients in the most focused, personalized and cost-effective fashion possible.

Our ability to offer superb, highly responsive counsel is further fueled by the fact that, since our inception, strong, lasting client relationships are at the heart of the Firm's philosophy and drive all that we do. We know that success requires the kind of seamless, ongoing cooperation — with both our clients and each other — that Glaser Weil's collaborative culture and multidisciplinary approach make possible. Investing the time to immerse ourselves in our clients' businesses and to understand the unique conditions affecting their industries is one of the distinguishing characteristics of the Firm, and reflects our commitment to handle each client assignment in a proactive, creative and nimble manner.

Our clients' business needs may involve many different areas of the law. With that in mind, Glaser Weil is adept at forming matter-specific teams, each with the necessary specialized skills and experience to resolve issues quickly and adeptly. When required, lawyers in our Corporate Department work closely with other practice areas in the Firm, including Litigation, Real Estate, Environmental and Energy, Intellectual Property and Insurance. Should, for example, our corporate clients need to enforce contractual rights, they can, at a moment's notice, take advantage of our Litigation group's enviable track record and reputation in business controversy cases.

In the end, it's all about one thing: Bringing the Glaser Weil game-changing standard of excellence to bear for our corporate clients, every step of the way.
